According to the petitioners they never received a response. JB can I pass along your contact info as the attorney assigned?

I recall this petition, but don't recall any specific response beyond the initial acknowledgement from Dennis. I'll check my records to see what I can find ...

I do not remember the original petition thinking, but it would have been handled by Leigh Woodruff or Bill Stewart in the Watershed Unit. I'm copying them for their input.

Were either of you able to determine who, if anyone, this petition was assigned to?

Alex,

Are you the right person to contact re this petition too (see below)? I e-mailed Dennis a couple weeks ago to check in on this petition since he's the one who responded to the petition initially and since I haven't heard from anyone else at EPA about it. But I haven't heard back from Dennis, and I understand he is leaving soon. Anyway, if you have any info on this, or can identify who it is I should contact, that would be much appreciated.

Thanks,

Bryan

To: mclerran.dennis@epa.gov

Regional Administrator McLerran,

I'm writing to inquire about the status of EPA's review of the Mar. 9, 2015 petition I submitted on behalf of my client (the Idaho Conservation League), petitioning EPA to disapprove the Snake River Hells Canyon nutrient TMDL in light of new information. You responded to me by letter dated Apr. 27, 2015, indicating that EPA is carefully evaluating the new information and would later provide a more detailed response.

Please let me know the current status of EPA's review and when we can expect a final response from EPA.

Sincerely,

Bryan Hurlbutt

Attorney for Idaho Conservation League
